## Strachauer Park A Neighborhood Roadway Improvements

Dear Resident:

The City and the contractor are aware of the seeding conditions in Stage I. The contractor is required to maintain the seeded area including watering, mowing, re-seeding and weed removal. The City will work with the contractor to ensure the grass grows to meet standards.

In Stage I, crews were in on Thursday with an herbicide application, spraying designated areas. Re-seeding will take place within the next week. Please do not spray any form of herbicide treatment (other than designated by the contractor) on the boulevard areas affected by the reconstruction. You can apply treatment to other portions of your yard.

Visu-Sewer will be in to start their work in Stage II next week. Residents should pay close attention to their front doors for notices pertaining to the work being performed.

All schedules are weather-dependent and are subject to change.
